### Company Information

Axial is an innovative, Staffordshire based consultancy specialising in Programme Management for the Rail Industry. To support future works and strengthen our business, we are looking to recruit team members who show potential to grow.

Successful candidates will join our team based in Staffordshire to support our portfolio of rail projects across the Midlands and North-West. We offer an interesting & varied workload, commitment to the development of our staff and the opportunity to broaden your skillset surrounded by industry experts.

### Skills & Experience - Required

- Competent IT user with excellent understanding of Microsoft Excel.
- Excellent written and oral Communication skills.
- Strong organizational skills and logical thinking skills.
- Full UK Driving license with the willingness to travel to site offices.

### Skills & Experience - Desirable

- Basic understanding of how a construction project/ programme works.
- Experience of Rail Infrastructure Projects –site or office based.
- Understanding of Network Rail (NR) planning documents and systems – Including PICOP packs, EAS, PPS, NROL.
- Basic level of programme management software – P6 or MSP.
- Power BI experience.

### Roles & Responsibilities

As a trainee Integration Planner, you will learn the importance of integrating engineering works through a project lifecycle and be provided with the tools and mentorship to efficiently do this. You will be responsible for completing the Axial Training Programme to gain a wider knowledge of how the rail industry operates and assisting the Integration team with day to day review and upkeep of some planning documents.

### How to Apply

Please complete the Job Application Form and upload your CV and any Supporting Information.

Closing Dates for applications is Friday 11<sup>th</sup> October.
